ELEVENPATHS JOINS SAINT PATRICK TECHNOLOGY TO OFFER SECURITY SOLUTIONS BASED ON THE LATEST BIG DATA TECHNOLOGIES FOR SPANISH, IRISH AND UK MARKET

- **As a result of this new agreement, ElevenPaths and Saint Patrick Technology reinforce their aim to develop and Implement specialized mobile applications in those technologies.**
- **Their collaboration will be focused on knowledge, synergies and technical resources sharing for the development of products and services based on digital security.**

Madrid, february 6th, 2017. ElevenPaths, Telefónica Cyber Security Unit and Saint Patrick Technology (Tecnología y Personas), a leader in solutions development (based on the latest technologies such as AR, VR, NFC, RFI, Big Data) announce today our most recent partnership to reinforce their aim to develop and Implement specialized mobile applications in those technologies.

Their collaboration will be focused on knowledge, synergies and technical resources sharing for the development of products and services based on digital security, especially with ARPassCode, PVCT and Aurlink products. They have been designed using the latest technologies and focused on the cyber segment security.

To **Roberto Rodríguez Gómez, Partner Director in Saint Patrick Technology** *"the products developed by Saint Patrick Technology fits perfectly with the ElevenPaths' Identity and Access Solutions"* also adding *"our tools also reinforce Eleven Paths' anti-fraud solutions in terms of securitizing payment systems.*

On the basis of this new agreement **ElevenPaths' Vice Presidente for Strategic Alliances, Rames Sarwat,** says "*thanks to this partnership, ElevenPaths and Saint Patrick Technology will work together for the development and distribution of products and services for both companies. We want to reach the Spanish market and also, the markets in Ireland and UK.*".

As a result of this agreement, both ElevenPaths and Saint Patrick Technology will include these services in their portfolios, increasing the options for technological and consultancy solutions and also last generation developments.

ElevenPaths and Saint Patrick Technology will include these services in their respective portfolios to expand the spectrum of technology solutions, consulting and latest generation development.

About ElevenPaths

At ElevenPaths, Telefónica Cybersecurity Unit, we believe in the idea of challenging the current state of security, an attribute that must always be present in technology. We're always redefining the relationship between security and people, with the aim of creating innovative security products which can transform the concept of security, thus keeping us one step ahead of attackers, who are increasingly present in our digital life.
